Environmental Policy Statement

ISO Compliance Register Limited is committed to the care of the environment and the prevention of pollution.

The organisation ensures that all its activities are carried out in conformance with the relevant environmental legislation and any other compliance obligations to which the organisation subscribes.

The organisation seeks to reduce impact on the environment within its activities by promoting the hierarchy of waste management, reduce energy consumption, prevent harmful emissions and where possible work with external providers who themselves have environmental policies.

The organisation is committed to continually improving environmental performance. This is to be achieved by setting annual environmental improvement targets which shall be regularly monitored and reviewed. The objectives and targets are communicated throughout the organisation and all company personnel are committed to their achievement.

To achieve the above commitments, the organisation has implemented an Environmental Management System which is in accordance with the requirements of BS EN ISO 14001: 2015.

This Policy and the obligations and responsibilities required by the Environmental Management System, have been communicated to all employees and other interested parties when deemed beneficial in helping the organisation achieve its environmental objectives.

This Policy is available to the public on request or as a resource from our website. This Policy is reviewed at regular intervals to ensure its continuing suitability.
